Boston, June 14.—A robbery involving the loss of \$120,000 in securities by Henry M. Comstock, of Boston, which occurred on board the steamer Puritan during her trip from New York to Fall River last night, was reported to the police authorities of this city today. The securities, which included 22 certificates of stock of various railroads and of the United States Steel corporation were taken from under a pillow in Mr. Comstock's state room by some one, who, it is believed, had climbed through a window. Philadelphia, June 14.—The principal developments in the local political situation was the resignation of Samuel Salter, as assistant to the chief clerk in the office of the county commissioners and the issuing of an order for the dismissal on Wednesday of 65 employees in the bureau of city property and 14 in the electrical bureau. Probably the most interesting development was the resignation of Salter, who some years ago, after being a fugitive from justice for about a year, returned to this city and was acquitted of the charge of stuffing a ballot box. In his resignation, which came as a surprise to the citizens of the city, Salter stated that he intended to go into business.

These block signal houses are located every ten miles, while every freight yard or crossing is also equipped with the establishment of special block-houses.
